KEY:

“X” means no close DMC match exists.

“mix” means each skein has too many different colors for a good conversion.

A number plus “mix” means the skein taken as a whole approximates that DMC color or has different shades of the listed color.

Two numbers means the Weeks Dye Works is a mix between those two DMC colors.

NOTES: Since Weeks Dye Works products are hand over-dyed, they have a different look than commercially-dyed flosses (like DMC.) These conversions are meant as a guide, but will not serve as exact matches. Sometimes, the same DMC color is listed for several different Weeks Dye Works flosses, due to the subtlety of the hand-dyed threads.

Use this guide in a pinch to help you substitute DMC floss for a color of Weeks Dye Works color you may have run out of.

Use the DMC to Weeks Dye Works conversion to convert your charts from DMC to Weeks Dye Works threads.

Weeks Dye Works hand over-dyed flosses are produced in the USA. This complementary

conversion is provided free-of-charge by Weeks Dye Works
